BOIL WATER ORDER ISSUED FOR MAJESTIC PINES AND PINE HILLS *Order Issued by State Department of Health Services*

A Boil Water Order is being issued for Majestic Pines (Kentwood area only) and for Pine Hills (except for Richardson Beardsley area).

The Kentwood area lost power for several days, but now has an emergency generator supplying water. The loss of pressure may have contaminated the quality of the water and bacteriological samples must be collected to verify the water is safe to drink.

The Pine Hills water system is abandoned and its status is undetermined, according to the State Department of Health Services, which has requested the County of San Diego disseminate this information.
